

Mr. Hide

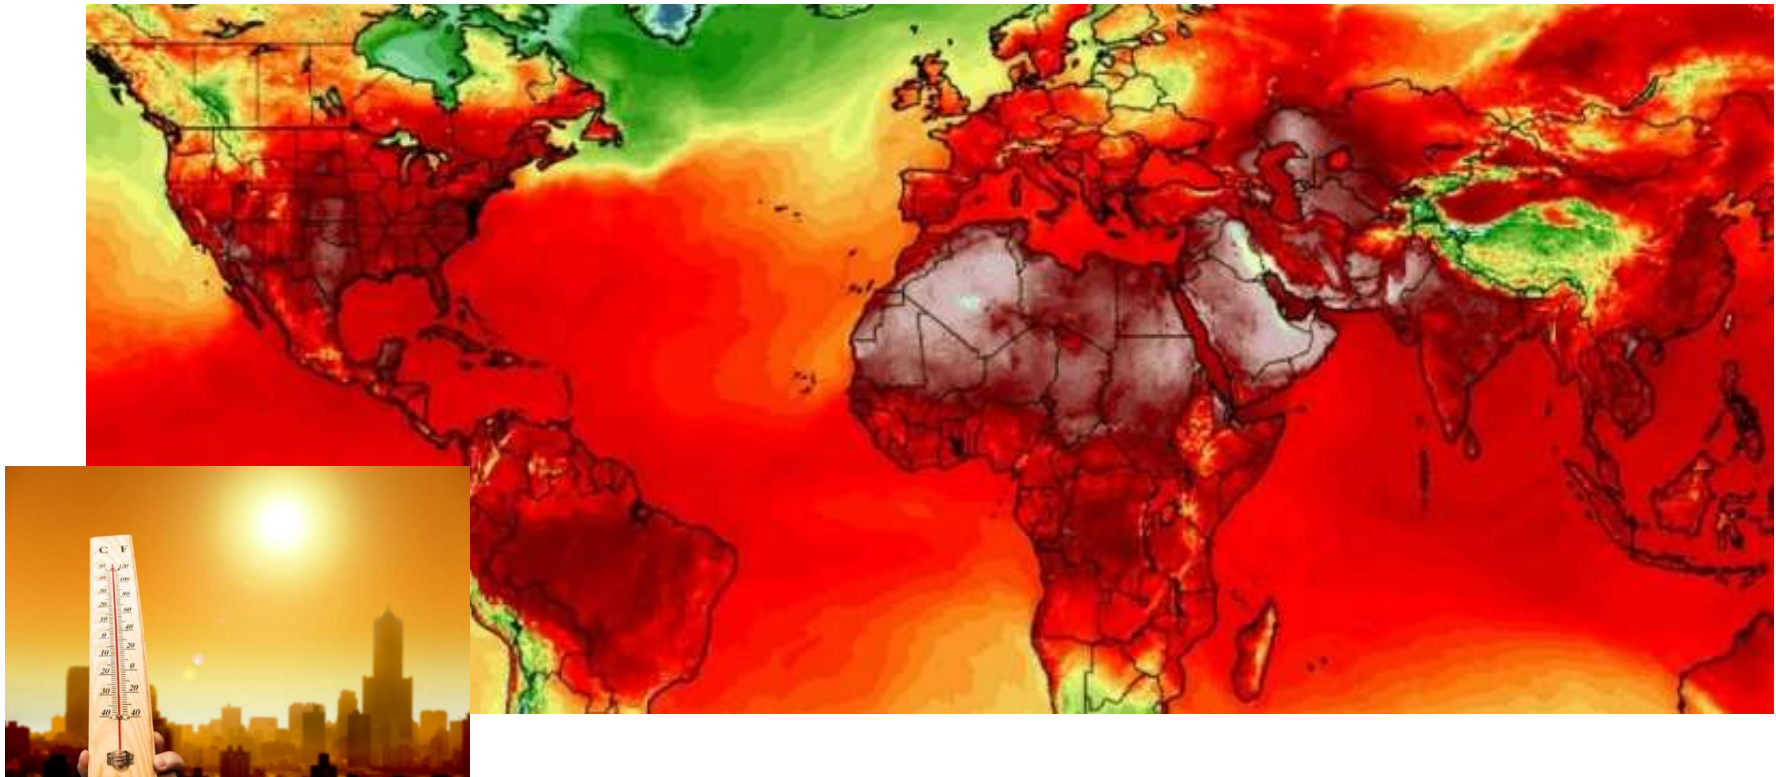

Dr. Sang-Sun, Ahn (CEO, M-Robo Inc.)
sangsun.ahn@gmail.com

The summer of 2018 was horrible.

The world will get **hotter** in the future.

Heat wave is nature's silence killer

Most dead by natural disaster (South Korea)

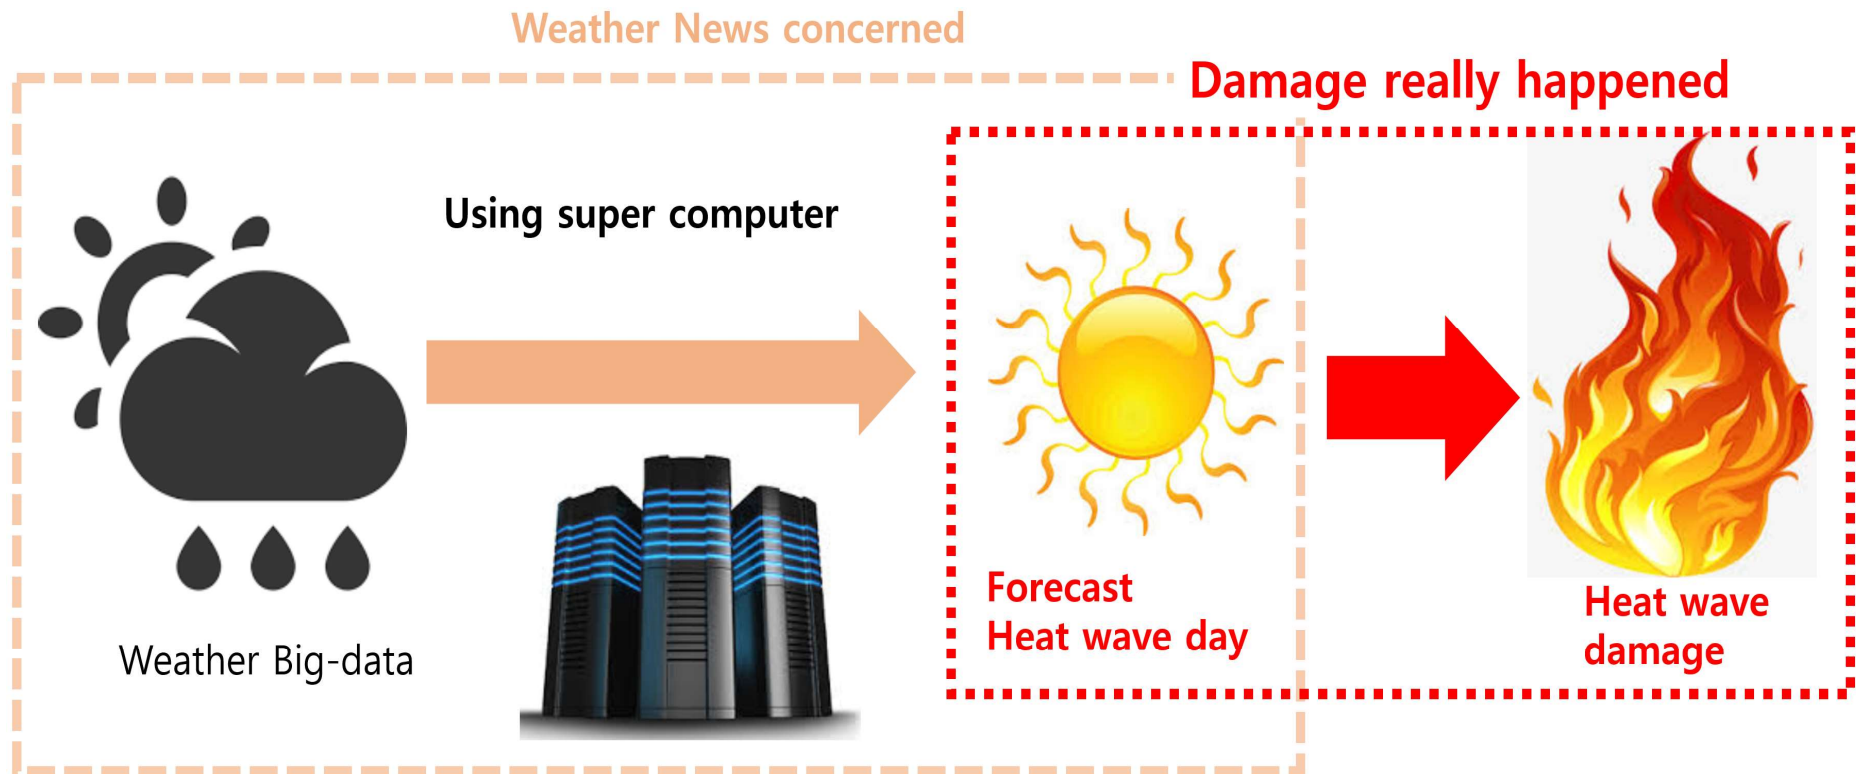

Heat Wave : 3,384(1994)

Typhoon : 1,104(1932)

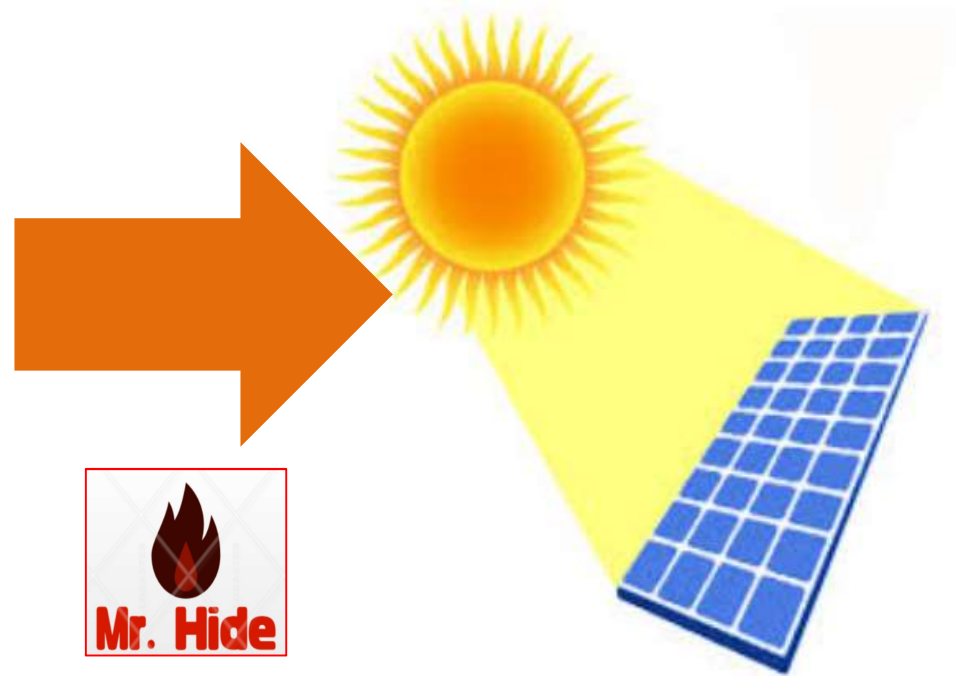

Flooding : 844(2006)

But No one provide information of the damage

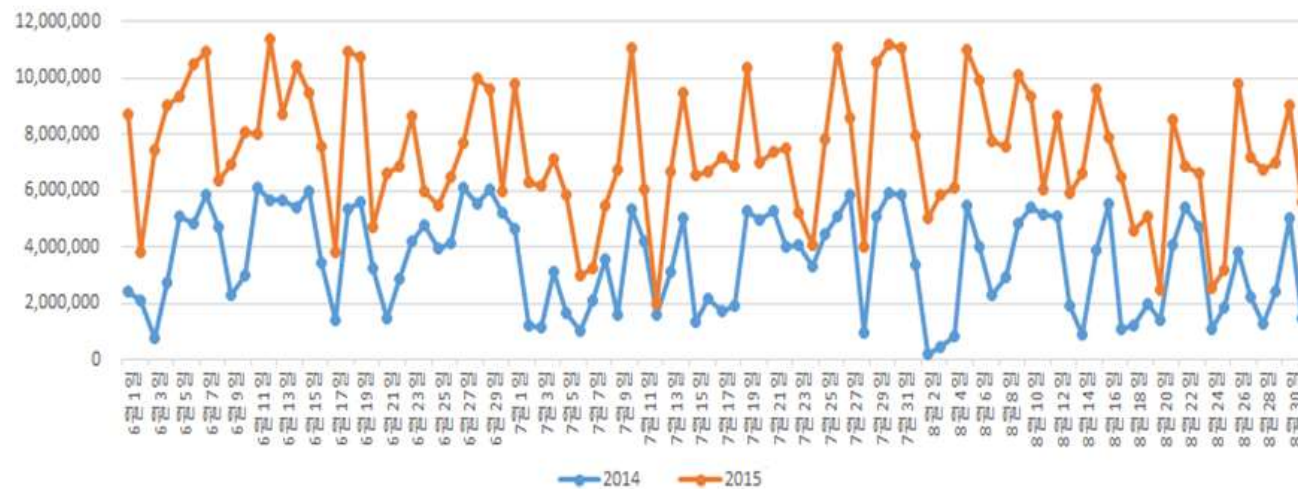

Service Concept : Calculate the **heat wave risk through **solar energy data**.**

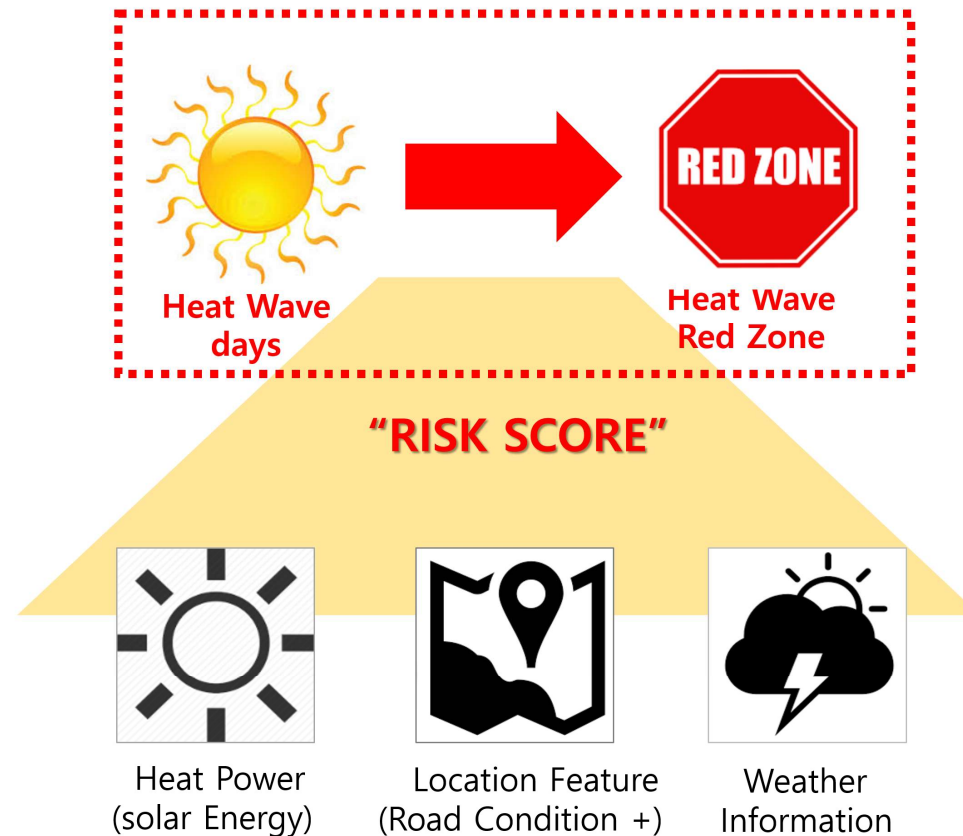

<Table> Comparison of Heat Damage in 2014 and 2015

Table Name	2014	2015	Remark
Number of heat wave patients	561 people	1056 people	88% increase from the previous year
Number of deaths from heat wave	1 people	11 people	1000% increase from the previous year
heat wave days	7.4 day	10.1 day	2.7 days increase from the previous year
solar energy data	323,524,872 kcal	355,591,080 kcal	9.9% increase from the previous year

Mr. Hide finds **red zone** by using **risk scoring model**

Mr. Hide finds **safety zone** to avoid **Heat stroke**

Progress of **heat stroke**

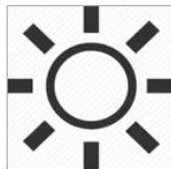

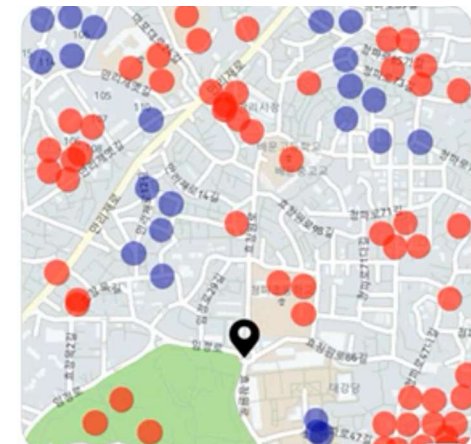

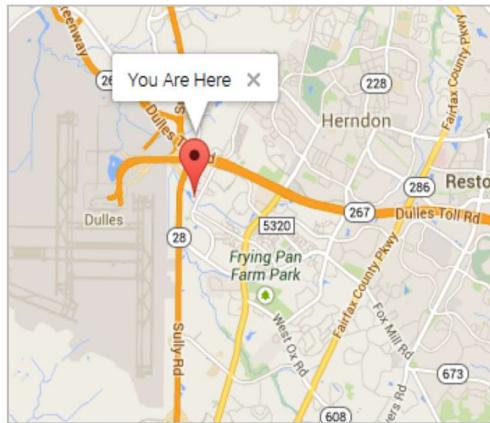

Should relax in the
safety zone

First aid in
safety zone

Mr. Hide use map data and show information

Heat Power
(solar Energy)

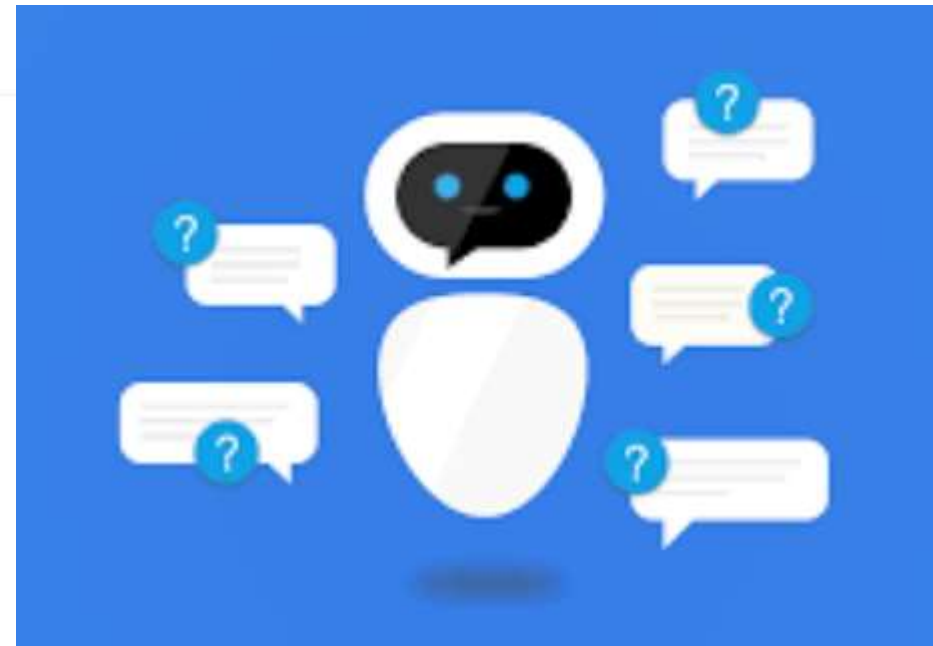

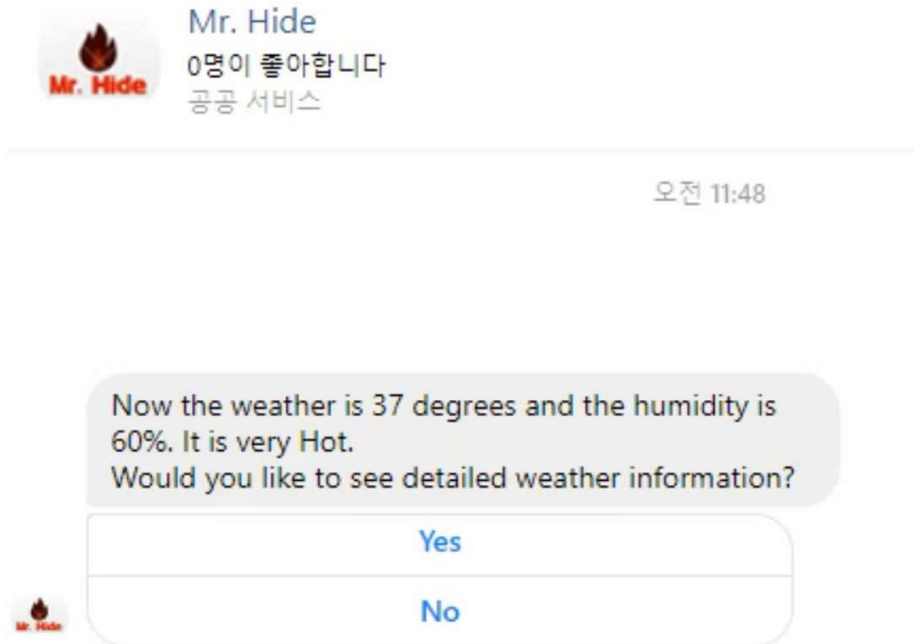

Location Feature
(Road Condition +)

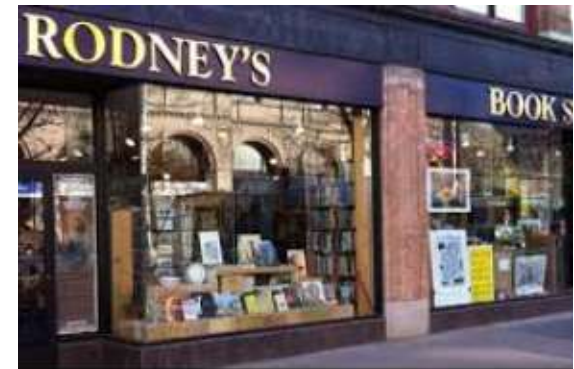

Weather
Information

See our Demo (Chat-Bot)

Business Model : AD-Tech

Future Plan : Health Care Service

Team : M-Robo

Sang-Sun, Ahn
CO-FOUNDER & C.E.O

Ron-Cho
CO-FOUNDER & C.T.O

Si-Min, Kim
DATA-ANALYST & PLANNER

Gyu-Jin, Ahn
DATA ANALYST & DEVELOPER

Dong-Keun Oh
DATA ANALYST & DEVELOPER

Ye-Jin, Yu
DATA-ANALYST & MACHINE LEARNING

A white humanoid robot with a funnel-shaped head and glowing blue lights on its shoulders. It is holding a large tablet in front of its chest.
